

## Stock Donations

Stock donations offer a true win-win for both the donor and the church. For the donor, giving appreciated stock is a tax-efficient way to be generous—often avoiding capital gains taxes while still receiving a charitable deduction for the full market value of the gift. For the church, stock donations can be received and processed without the per-transaction fees associated with digital giving. Together, stock giving allows generosity to go further, maximizing impact while advancing the church's mission and vision through wise stewardship.
